

SUB-DISTRIBUTION SWITCHBOARDS

Twyver Switchgear design and build a range of Sub-Distribution Switchboards for ratings of 800 amps and below.

Customers can choose from our:

- ✓ Custom built range
- ✓ Modular design range

Customer built range

Our “Custom built range” is ideal where space is at a premium and has a reputation for quality & reliability.

This range is based on:

- ✓ Compact front access design
- ✓ Top or bottom cable entry
- ✓ ASTA certified bus bar systems
- ✓ Choice of paint colour / finish
- ✓ Moulded case circuit breakers or fuse switch units
- ✓ Ingress ratings up to IP65

Forms of separation to BS EN 60439-1 including:

- ✓ Form 2
- ✓ Form 4

Modular design range

Our “Modular design range” is competitively priced and suitable for both industrial and commercial applications.

This range is based on:

- ✓ Maximum rating of 630 amps
- ✓ Form 2 construction to BS EN 60439-1
- ✓ Standard ingress rating of IP40 (IP43 version available)

- ✓ Feeder circuits based on moulded case circuit breakers
- ✓ Distribution Boards based on miniature circuit breakers
- ✓ Front access only
- ✓ Top or bottom entry
